

## Mechanics

This is a listing of mechanics Audifans members know about. This page is intended to **only** be like a "phone book"; we maintain a separate page of recommendations and warnings, and listings here should be linked to any recommendations or warnings.

To edit, you must be logged in. Please:

- preview your edits
- follow the format of existing entries
- list entries alphabetically by state, city, and name.
- check mechanic's websites and encourage them to link to Audifans (use www.audifans.com)

**To list a mechanic as recommended, please link to the appropriate section in Mechanic recommendations.** Notes or questions regarding the validity of an entry should go on the discussion page.
